Social Media Influencers

What is an Influencer?
An influencer is somebody on a social media platform such as YouTube and Instagram, who have a high number of followers. Influencers share their opinions/ideas and may be paid to advertise/promote products through their account.

What should I be concerned about?
Whist there are some great influencers, there are some that choose to share content that is for example, misogynistic, racist or misleading. These opinions can be expressed or interpreted as fact, so it is important to talk to your child and encourage them to fact check and critically analyse what they see and hear online.

What we see on social media
What we see is influenced by algorithms, which predict what type of content we are most likely to interact with. Whilst there are benefits of algorithms, it can mean that once we start looking at certain content, our social media feed can become more aligned with that opinion, creating an echo chamber and therefore we do not see a balanced picture. Find out more here: https://www.childnet.com/blog/algorithms/

What can I do to help my child?
Talk to your child about social media and who they follow. If there is anybody that you are unsure of, then check their feed and discuss with your child if you find anything worrying.

Fortnite Battle Royale

Fortnite Battle Royale is rated PEGI 12 due to moderate violence, meaning it is not suitable for children under the age of 12.

What is Fortnite?

There are different versions of Fortnite, including Fortnite Battle Royale, which is free to play (although it contains in-app purchases). In Battle Royale, up to one hundred players compete against each other until one winner remains.

What do I need to be aware of?

- **Chatting and inappropriate language:** Fortnite includes voice and text chat, which may mean your child encounters strangers and may hear inappropriate language. Ensure your child knows how to report/block any players that make them feel uncomfortable.
- **In app purchases:** Players can purchase V-Bucks so make sure you restrict purchases and do not store your card details.

Parental Controls

Fortnite provides several parental controls in your child's Epic account to help you create a safer environment for your child. The controls allow you to:

- disable voice chat
- filter language
- manage which experiences your child can access based on their age
- set a PIN to add friends
- set a PIN for purchases
- set time limits
- set appropriate privacy settings.

Also, remember to set up age-appropriate parental controls on the device your child is playing on.

Reporting/Blocking Features

As always, ensure your child knows how to use the reporting and blocking features and that they know they should talk to you or another trusted adult if anything concerns them.

Further information

You can find out more here:

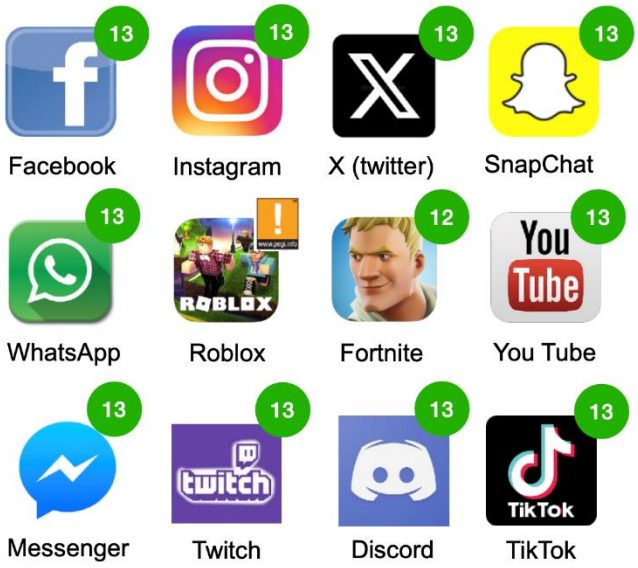
Get to know age ratings

Age ratings exist to help protect your child, so we thought we'd provide you with a little reminder of how important it is to check the age ratings of what your child is accessing online**.** Here are the age ratings of some of the more popular apps that young people are accessing.



Whether your child is viewing films, accessing apps, playing games online or using social media – make sure you check the age rating first to see if your child is old enough. In addition, the likes of PEGI (Pan European Game Information) provide further content descriptors, which will give you an indication of the type of content that your child might view e.g. violence or bad language.

What else should I review?

It is important to note that whilst age ratings do allow you to see if something may be appropriate for your child, it is also important to review the content yourself**.** This will allow you to make an informed decision as to whether it is suitable for your child to access and if it would be beneficial to apply further parental controls. For example, does it include the ability to communicate with others and are in game/app purchases available?

What else can I do?

- Explain the importance of age ratings to your child and how they protect them.
- Go online together to see what your child is accessing.
- Set up parental controls on your broadband, devices and on any individual apps that your child is using. This will reduce the chances of them accessing or viewing anything unsuitable.
- Chat to your child regularly about what they are doing online and as always, remind your child that if anything is worrying them then they should talk to you or another trusted adult.

Smartphone Free Childhood

Smartphone Free Childhood is a parent-led movement whose mission is to protect children from the dangers of using smartphones too young.

The premise behind this movement is that all parents/carers of a class all agree not to give their children smartphones (therefore the level of peer pressure is reduced) for a set time or until a specific age. Are you ready to join? Find out more here:

https://smartphonefreechildhood.co.uk

Digital differences between men and women revealed

Ofcom have released their annual report into our daily habits. The findings show that women and teenage girls are more worried about online harms. You can read the full report here:
